Billing and Refund Policy

Policy owner: Finance & Billing Operations · Version 5.0 · Effective date: 2026-01-01 · Supersedes all previous refund FAQs

1. Scope

This policy applies to all paid Tasklane plans (Pro and Enterprise) purchased directly from Tasklane. Purchases made through resellers or marketplaces follow the reseller's refund terms.

2. Billing cycles

Pro is available with monthly or annual billing. Enterprise is available with annual billing only. Invoices are issued on the first day of each billing period and charged automatically to the payment method on file. Enterprise customers may pay by bank transfer with net-30 terms.

Seat changes made during a billing period are prorated. Added seats are charged immediately for the remainder of the period. Removed seats are credited to the next invoice; credits are never paid out as cash.

3. Failed payments

If an automatic charge fails, the workspace enters the **past_due** status and Tasklane retries the charge on days 1, 3, and 5. The grace period is 7 days. If no payment succeeds within the grace period the workspace is **suspended** and becomes read-only until payment is received. See the Account Status document for what members can do while suspended.

4. Refund eligibility

Plan and billing	Refund window	Refund type
Pro, monthly	No refunds	Cancel anytime; access until period end
Pro, annual	14 days from purchase or renewal	Full refund
Pro, annual (after 14 days)	Not eligible	Remaining term stays active
Enterprise	Per signed order form	As contracted
Unused seats	Any time	Account credit only

Refunds are issued to the original payment method within 5–10 business days. A refund cancels the subscription; the workspace returns to the Free plan immediately.

5. Exceptions

Support agents may **not** promise refunds outside the windows above. Requests for exceptions (for example, a documented service outage longer than 24 hours) must be submitted to the Billing team using the *refund-exception* ticket tag. Only Billing team leads can approve an exception, and approval must be recorded on the ticket before the customer is informed.

Duplicate charges caused by a Tasklane billing error are always refunded in full, regardless of the refund window.

6. Taxes

Prices exclude VAT, GST, and sales tax. Tax is calculated from the billing address on file. Customers with a valid tax exemption certificate must upload it before the invoice is issued; tax already charged is not refunded retroactively.

7. Changing the payment method

Only workspace Owners can update the payment method, under Settings → Billing. Support agents can send a secure payment-update link but must never ask customers to share card numbers in a ticket, chat, or email.

8. Chargebacks

If a customer files a chargeback, the workspace is moved to **locked** status while the dispute is reviewed. Support agents must route chargeback tickets to the Billing team and must not discuss the dispute outcome with the customer.

9. Contact

Billing questions: billing@tasklane.example. Enterprise contract questions: contact the assigned account manager.
